

Art in Focus: The Lady in Green

We hope you enjoy exploring our temporary exhibition which focuses on the painting 'The Lady in Green' by Augustus John. The woman in the painting is Euphemia Lamb. She was the first wife of another famous artist who lived in Poole called Henry Lamb. The picture was created in Wales in the early 1900s, probably around the year 1911.

Create your own art in focus

A viewfinder is a very useful tool when creating a piece of art. It is a simple frame that you can look through, helping you to focus on something specific.

Choose your view. This can be an object, a person, a building or even one of the artworks in the galleries. Hold your viewfinder at arm's length. Spend some time looking at different views before you choose the one you want to draw.

Make a pencil sketch of what you can see through your viewfinder.

*Try it for yourself
at home!*
